

Bellman Alarm Clock VISIT

Bellman Alarm Clock VISIT The Bellman Alarm Clock VISIT wakes you with a combination of loud sound, bright flashing lights, and powerful bed shaker vibrations. It can also alert you to important events such as the doorbell, telephone, baby crying, or smoke alarm activation when connected to compatible transmitters. Designed for individuals who are deaf, hard of hearing, or heavy sleepers, it ensures you never miss an alert day or night.

- **Powerful Sound:** Delivers a loud alarm of up to 100 dB to ensure you wake up on time.
- **Flashing Light Alerts:** Built-in high-intensity LED flashes provide bright visual alerts — even effective in daylight.
- **Strong Bed Shaker:** Includes a vibrating bed shaker that wakes you discreetly by vibration under your pillow or mattress.
- **Night Light:** Built-in gentle blue night light helps guide you safely back to bed in the dark without disturbing others.
- **Smart Snooze:** Gradually reduces snooze time from 9 to 2 minutes, helping you wake up naturally and on schedule.
- **Battery Backup:** Equipped with a powerful backup battery system that keeps the alarm, bed shaker, and light functions active during power outages.
- **Telephone Line Connection:** Connects directly to your telephone line to alert you of incoming calls.
- **External Input Socket:** Allows connection to other Bellman Visit devices, such as mobile phone sensors or contact mats.
- **Customisable System:** Can integrate with Visit transmitters for door, baby monitor, telephone, or smoke alarms for a full home alerting system.
- **Gradual Alarm Sound:** The alarm increases in volume and sweeps through multiple frequencies to ensure it's heard even by those with hearing loss.
- **Reliable Power:** Mains powered with included 4 × AAA NiMH rechargeable

backup batteries for uninterrupted operation.

- **The Bellman Alarm Clock VISIT:** Provides a reliable, multi-sensory alert system for individuals who need extra assistance waking up or being notified of important household events. With its combination of sound, light, and vibration alerts, it ensures peace of mind and independence both day and night.

In the Box:

- **Alarm Clock:** Main Bellman Visit unit with sound, light, and vibration alerts.
- **Bed Shaker:** Vibrating unit for under-pillow or mattress placement.
- **Power Supply:** Standard power adapter for continuous operation.
