

Bellman Transmitters

- **Bellman Mobile Phone Sensor:** Alerts you to incoming calls or messages on your phone or tablet when used with a Bellman PRO or VISIT alarm clock.
- **Bellman Smoke Transmitter:** Detects smoke and triggers the Bellman Visit receiver system; tested and approved to AS3786 for safety.
- **Bellman Visit Baby Cry Monitor:** Monitors your baby's sounds and securely alerts you through the Bellman Visit system.
- **Bellman Visit Bridge Transmitter:** Connects your Bellman Visit system to smart devices like watches, phones, or tablets for instant notifications.
- **Bellman Visit Contact Mat:** Notifies you when someone steps on the mat, leaves bed, or enters a room when paired with a Visit transmitter.
- **Bellman Visit Door Transmitter:** Alerts you to doorbell rings or knocks — ideal for people with hearing loss or impairment.
- **Bellman Visit External Microphone:** Extends sound detection by connecting to a Visit Door Transmitter for hard-to-reach sound sources.
- **Bellman Visit Magnetic Switch:** Detects door or window openings when used with a Visit Phone Transmitter for added security.
- **Bellman Visit Push Button Door Bell:** Works as a wireless doorbell, sending alerts through the Bellman Visit system when pressed.
- **Bellman Visit Tel/Multi Phone Transmitter:** Alerts you to incoming phone calls or messages, keeping you connected at all times.
- **Bellman Visit Bed Shaker:** Wakes even heavy sleepers with powerful vibrations; requires a compatible Bellman receiver.
